Math Story Problems

1. Click on **Library > Cartoon > Food**. Choose your favorite fruit.
2. Click on the picture so you see the object handles.
3. From the File menu, click on **Options > Clone**.
4. Click and drag as many pieces of fruit as you need to create your math story problem.
5. Click **T (Text)** at the top of the page.
6. Type your math story problem.
7. Illustrate your problem using paint tools.
8. Type out the number sentence for your story problem.

I love apples! My mom bought a bag that had 8 red apples. My dad knew that I loved apples. He gave me 4 more apples. Now, I have a lot of apples to eat!

$$8 + 4 = ?$$
